

Leadership Profile

Ron Hanson
Executive Vice President, Minnesota Operations

Under Ron's supervision, Boldt's northern Minnesota presence has grown into one of the region's leading general contractors ... and a resource customers can count on for excellence.

With Boldt since 1985 — and in construction for nearly 35 years — Ron and his Minnesota team have successfully undertaken everything from industrial, commercial and institutional projects to those for paper and mining, higher education, manufacturing and health care.

On a day-to-day basis, his background and knowledge is used to oversee estimating and project management, contracting, procurement and cost engineering, while providing general guidance for the division at large.

Ron's creative, empathetic approach to meeting customer needs has become a benchmark in their service territory, representing the best in innovation, efficiency and cost-savings
