

Leadership Profile

Alex Brewer

DEVELOPMENT ASSOCIATE, BOLDT HOLDINGS

ON SUSTAINABILITY / ENVIRONMENTAL LEADERSHIP

As a sustainability specialist, Alex helps provide direction for The Boldt Company's corporate sustainability program. Alex leads the Sustainability National Practice Group, Green Tier Program and has worked on project administration for several LEED projects, including the Boldt corporate headquarters in Appleton. Alex's involvement in sustainability helps The Boldt Company in its mission to be a leader in environmental stewardship. He assists the overall company as well

as individual projects and employees in reaching their sustainable goals.

During his time at Boldt, Alex has worked in the field as a project engineer, on architectural and sustainable design for Boldt Technical Services and now in development for Boldt Holdings. His range of experience within the company provides him with a solid understanding of our business and how it impacts the environment.
